I am Lucie Paurova, a 21 year old clever hardworking girl who loves challenges. I like Teamwork and I'm not afraid to take the lead position in a group if necessary or required , I'm a decisionmaker, put the right people at the right spot (work related) and I'm eager to absorb and apply new information and competences.

I love brewing coffee, utilizing and maintaining equipment the best way possible and managing people including every challenge that comes with that.

Why do I think my coffee is the best brew you can get? I'm happy to prepare the coffee of your choice to convince you ;)

In the start of November I have moved in with my boyfriend that lives in Enschede that's why I'm now searching for work that better fits me.

Hopefully this resume will trigger you to schedule an appointment to discuss possibilities.
